Houston, Texas 77008-3752

In re: Siga Broadcasting Corporation (Siga)  
KAML(AM), Kennedy-Karnes City, Texas  
Facility Identification Number: 17322  
File No. BP-20090204ABW  
Petition for Reconsideration

Dear Mr. Arango:

This letter is in reference to the September 21, 2009, Petition for Reconsideration submitted with an amendment of the above-captioned application in response to our September 16, 2009, action dismissing the application.<sup>1</sup>

A preliminary review of the amended application reveals that the amended proposal has eliminated all the interference problems listed in our September 16, 2009, letter. However, the proposal causes objectionable interference to Mexican station XET. Specifically, the proposed 0.025 mV/m contour overlaps the 0.5 mV/m contour of co-channel Mexican station XET, Monterrey, Nuevo Leon, inside Mexican territory, in violation of the U.S/Mexican Agreement.

Accordingly, the September 21, 2009, Petition for Reconsideration filed by Siga is hereby DENIED. Pursuant to the Public Notice entitled "*Commission States Future Policy on Incomplete and Patently Defective AM and FM Construction Permit Applications*", FCC 84-366, we will not entertain another petition for reconsideration.

Sincerely,

Son Nguyen  
Supervisory Engineer  
Audio Division  
Media Bureau

cc: Bob Morrow

---

<sup>1</sup> In the application, Siga proposed to change the transmitter site and city of license from Kennedy-Karnes City, Texas, to Mathis, Texas. The application was dismissed on September 16, 2009, because the proposal caused objectionable interference to KSVP and KTKT in violation of Section 73.182 of the Commission's rules, and XENVA2 and XEER, in violation of the U.S/Mexican Agreement.
